Demonstration of Proposed Features

Date	20 October 2026
Individual Project / Name	Avni Agrawal
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document lists six proposed features for the **Electric Vehicle Market Performance & Insights** project. It covers market trends, manufacturer performance, battery technology, vehicle range, geographic manufacturing distribution, and customer satisfaction. The status and demonstration entries below are provided as a sample template and should be updated to match the features actually implemented and shown.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	EV Sales Analysis	Analyze annual EV sales and compare sales across vehicle categories and years.	Implemented	Yes	Shows sales trends and high-performing vehicle segments.
2	Manufacturer Performance	Compare manufacturers by sales and identify leading brands and market share.	Implemented	Yes	Supports competitor comparison and product portfolio planning.
3	Battery Technology Analysis	Compare LFP, NMC, NCA, Sodium-Ion and Solid-State battery adoption.	Implemented	Yes	Highlights battery technology distribution and adoption trends.
4	Driving Range & Battery Capacity	Evaluate driving range and battery capacity across EV categories.	Partial	No	Further validation and dashboard demonstration required.
5	Manufacturing Country Analysis	Explore the geographic distribution of EV manufacturing by country.	Implemented	Yes	Helps identify production hubs and regional patterns.
6	Customer Satisfaction Insights	Analyze customer ratings across manufacturers and vehicle categories.	Pending	No	To be completed and demonstrated after data integration.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	4 (including 1 partial)
Total Features Demonstrated	4
Overall Implementation Rate (%)	66.7% (4 of 6 features fully implemented)

Note: Feature statuses and demonstration results are illustrative placeholders because the actual project implementation was not provided. Please revise them to reflect your real dashboard before submission.
