Project Demo Planning

Date	20 October 2026
Individual Name	Avni Agrawal
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark

Project Demo Planning:

A structured demonstration plan helps present the Electric Vehicle Market Performance & Insights project clearly. The demo covers the project objective, EV dataset preparation, SQL analysis, interactive visualizations, key findings, and possible future improvements. As this is an individual project, Avni Agrawal esponsible for all demonstration sections.

S.No.	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain EV market growth, the need for data-driven analysis, and the project's objectives.	2	Avni Agrawal
2	Solution Overview	Describe the dataset, Snowflake tables, data cleaning steps, and SQL workflow.	2	Avni Agrawal
3	Data Analysis & KPIs	Show annual sales, manufacturer comparisons, battery technology distribution, driving range, and customer ratings.	3	Avni Agrawal
4	Live Dashboard Demonstration	Demonstrate charts, filters, dashboard navigation, and how selected filters affect results.	3	Avni Agrawal
5	Results & Key Insights	Present the main patterns observed in actual query outputs and visualizations; avoid claiming unverified results.	2	Avni Agrawal
6	Conclusion & Future Scope	Summarize project value, current limitations, and planned additions such as more data and forecasting.	1	Avni Agrawal

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the EV market analytics problem and project goals.
2	Solution Overview	Explain the data source, preparation, and SQL analysis process.
3	Live Feature Demonstration	Show actual charts, KPIs, filters, and the insights supported by the data.
4	Q&A Session	Answer questions; be ready to explain metrics, data limitations, and future improvements.

Estimated total demo duration: 13 minutes. Adjust the timing to match your actual dashboard and presentation requirements.
